Dear Sir/ Madam,

KOPLAS 2023

14-18 March, 2023 | KINTEX 1 (Korea International Exhibition Center 1) Hall 4,5

(408, Hallyu World-ro, Ilsan-seogu, Goyang-si, Gyeonggi-do, Korea)

Season Greetings!

Participate through The Plastics Export Promotion Council (PLEXCONCIL) at **KOPLAS 2023 (27th Korea International Plastics & Rubber Show), Kintex, Goyang, S. KOREA** and avail subsidy on your space booking, participation charges, airfare and freight.

About KOPLAS 2023

Plastic is an indispensable part of our everyday life. Korea's plastic processing industry, which is the fourth largest (in terms of production) in the world, employs approximately 250,000 people throughout related fields. As the convergence between industries has accelerated in recent years, the use of plastics and rubber in leading domestic industries such as automotive parts, IT-related products, and LED has rapidly increased, and various innovative plastic products are replacing metal, concrete, and glass. The plastics industry is a core foundational industry that continually generates demand and profit.

KOPLAS 2023 opens up a new market! KOPLAS, Korea's No.1 Plastics and Rubber Industry Exhibition welcome you to its 27th opening in 2023, which will offer a wide variety of attractions ranging from raw materials of plastic to molds, processing machines, ancillary equipment, automation solutions, printing, packaging, semi-finished goods, finished goods and a "plastics and rubber industry" marketplace where you can witness the present and future of the industry at a glance.

Maximizing exhibition marketing with a synergistic combination of exhibitions KOPLAS will be running with K-Mtech (Korea Materials, Composites & Equipment Show) which specializes in and categorizes to step up as Asia's No. 1 plastics exhibition including INERMOLD KOREA(Korea Int'l Die-Mold & Related Equipment Exhibition). It aims to open up a platform for marketing that will provide added value through the creation of new markets and increased exports by promoting interactions between the plastics, rubber, and material industries.

Potential Trade Sectors (Exhibitor's Profile)

- Finished & Semi-Finished Products
- Processing Machinery | Post Processing Machinery
- Molds & Dies | Ancillary Equipment – Parts & Meter | Test & Measuring Equipment

- Packaging & Printing Machinery & Others
- Raw/intermediary materials related equipment manufacturers
